### Profile

A self-motivated professional with extensive team collaboration involvement. 3+ years experience building web projects for a multitude of clients.

Team player / Detail-oriented / Time management /  
Self-motivated / Problem solving

### Professional Experience

#### Emeye (Seoul, South Korea) / UI developer

Dec 2015 - Dec 2017

- Developed interactive website and web application interfaces using HTML5, CSS3 and JavaScript libraries.
- Optimized web pages for maximum speed and scalability.
- Contributed to website maintenance including on-call bug-fixing and making updates to ensure that client's websites are running at full capacity.
- Worked directly with client stakeholders to translate their business needs into technical solutions.

Results : Implemented user-friendly interfaces including responsive design. Learned how to multitask and manage time efficiently.

#### Konest (Seoul, South Korea) / UI developer

Mar 2014 - May 2015

- Refactored legacy code to increase maintainability and enhance performance.
- Create customized landing pages for marketing campaign.
- Collaborated with content managers and web designers to create web pages for the up-to-date information delivery.

Results : Had a good understanding of markup languages and UX design. Developed collaboration skills with marketing, content, design and development teams to achieve the same goals.

### Education

#### Langara college (Vancouver, Canada)

May 2019 - Dec 2020

Post-Degree Diploma / Dean's Honour Roll.  
Web and Mobile App Design and Development.
