Profile

A self-motivated professional with extensive team collaboration involvement. 3+ years experience building web projects for a multitude of clients.

Professional Experience

WiseDigital (Vancouver, Canada) / Front-end developer (intern)
Nov 2021 - present

- Created custom WordPress themes and plugins using HTML5, CSS3, JavaScript and PHP. (https://comparewise.ca/)
- Translated wireframes into scalable and reusable code.
- Maintained the website by identifying issues and providing quick fixes.
- Ensured cross-platform and browser compatibility.

Emeye (Seoul, South Korea) / UI developer (full-time)
Dec 2015 - Dec 2017

- Developed interactive website and web application interfaces including responsive design.
- Contributed to website maintenance including on-call bug-fixing and making updates to ensure that client's websites are running at full capacity.
- Worked directly with client stakeholders to translate their business needs into technical solutions.

Konest (Seoul, South Korea) / UI developer (full-time)
Mar 2014 - May 2015

- Refactored legacy code to increase maintainability and enhance performance.
- Create web pages for the up-to-date information delivery and customized landing pages for marketing campaigns.
- Collaborated with cross-functional teams to achieve the same goals.

Education

Langara college (Vancouver, Canada)
May 2019 - Dec 2020

Post-Degree Diploma / Dean's Honour Roll.
Web and Mobile App Design and Development.
